Background: If your organization is new to [Provider Connection](#), you must establish an account.

Establishing an account:

The person executing the initial Provider Connection registration is considered an Account Manager. When the maximum allowed number of Account Managers register, Provider Connection will display a message. Most organizations can have at least two Account Managers. There are three types of provider accounts. The links below take you to step-by-step instructions with screenshots for how to register for the account type most appropriate to your business.

1. [Provider](#)
2. [MSO](#)
3. [Billing Service](#)

Account Managers:

Once registered, the Account Manager(s) will see an *Account management* link in their top-level navigation after log in. It provides direct access to all activities falling within the role.

Once established, the Account Manager(s) – not Blue Shield – sets up user profiles. Blue Shield will email each user a link to finish establishing their account. Users have 30 days to visit the site and complete this process. If a User does not do so within 30 days, the Account Manager will need to recreate their profile.

Users:

All users (and Account Managers) have a *Manage my profile* page where they can do things like update their username/ password, change their email, set their email preferences, and locate their Account Manager. After log in, a “badge” with the user’s initials appears at the end of the white navigation bar. Click this badge to access the *Manage my profile* page.

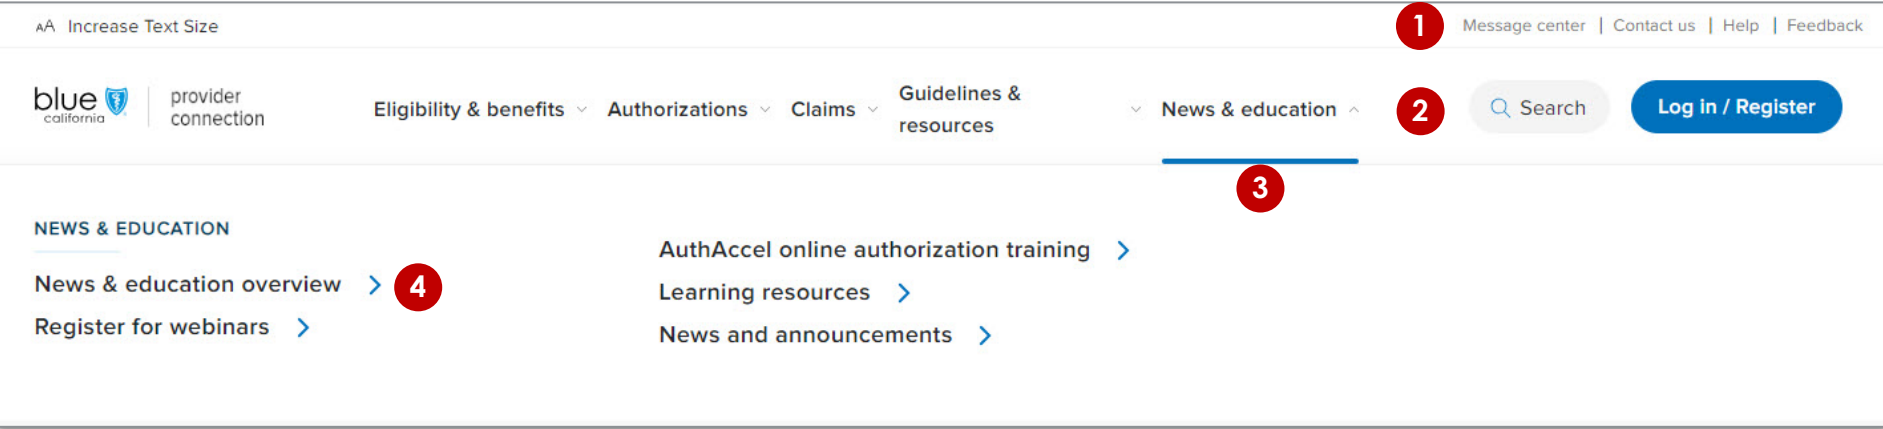

Additional support:

- This [Provider Connection Account FAQ](#) provides answers to the most frequently asked questions about establishing and maintaining a Provider Connection account as an Account Manager or user.
- A password must be updated every 365 days. See [Update your Provider Connection password](#) if you need help changing your password or if your account is locked or disabled.
- The [Provider Connection training page](#) includes links to the above resources and more. No log in is required.

Provider Connection website navigation

Background: Below is a high-level snapshot of how to navigate the [Provider Connection](#) website. Authenticated tools require log in, but there are many resources on Provider Connection that do not.

Instructions:

- 1. **Top level navigation:** General site actions like *Contact us* and *Help*.
- 2. **White navigation bar:** Links to the home page, five site sections, Search, and Log in/Register. When you click a section link, the blue line indicates the section drop-down menu you have activated.
 - Blue Shield uses two-step authentication. To verify your identity each time you login, enter your username/password plus the code Blue Shield sends to your email.
 - After logging in, you will see a “badge” with your initials at the end of the white navigation bar. Click to access your *Manage my profile* page.
- 3. **Section drop-down menu:** Links to the most-used content and tools within the specific section.
- 4. **Overviews:** Each section has an overview that provides a high-level table of contents for information on the page.

Tip: Blue Shield Promise resources that do not require log in are integrated throughout Provider Connection. They are also available from the [Blue Shield Promise Provider Portal](#). Links in the footer of each website allow you to move between the two websites.

Background: Blue Shield has designed our provider directory accuracy processes to be compliant with both the 2021 Consolidated Appropriations Act (CAA) and California Senate Bill (SB) 137 requirements.

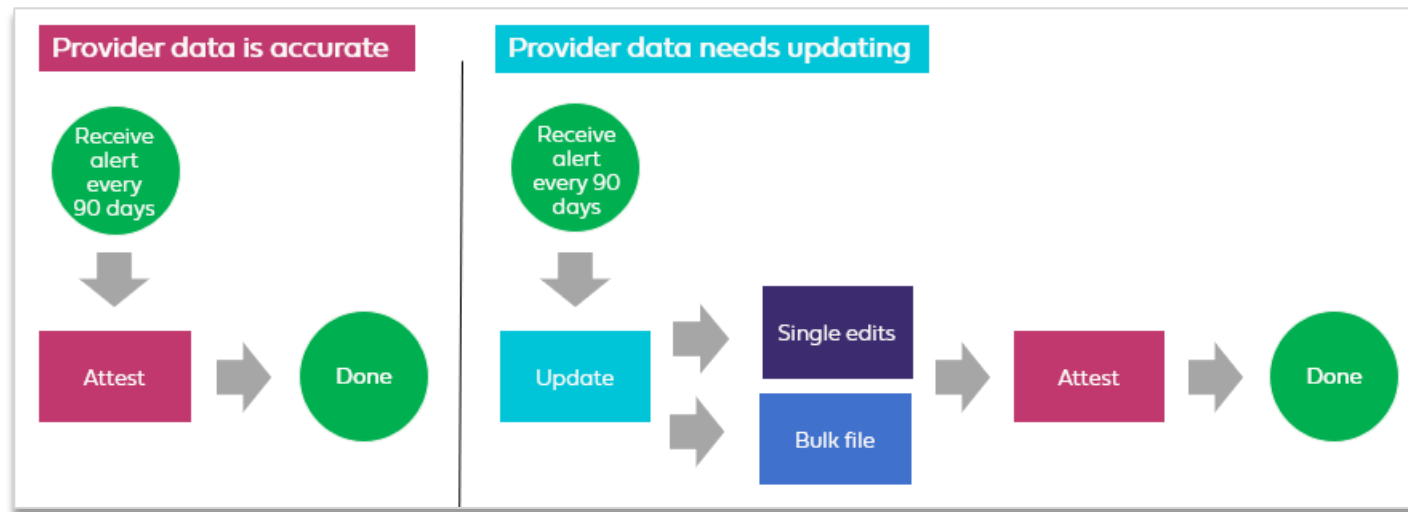

Process:

- Online attestation to data accuracy every 90 days, even if data has not changed. Blue Shield will alert a provider when it is time to attest.
- Directory updates at any time either by:
 - Single edits on the Provider Connection *Provider & Practioner Profiles* page.
 - Blue Shield’s bulk data file – the *Provider Data Validation Spreadsheet* – downloaded from *Provider & Practioner Profiles*, then uploaded back to the page.

Visit the [Provider data management](#) section for these resources: 1) [How to attest and update your provider directory information](#) (the full process) and 2) [Provider Data Validation Companion Guide](#) (detailed instructions on how to make demographic updates in the bulk data file/spreadsheet.)

Who can execute this process:

- Provider Connection Provider and MSO Account Managers and users to which they give provider demographic information access. [See instructions on the next page for how to assign user access.](#)
 - Billing Managers have view-only access.

Account Manager assign user access to provider & practitioner demographic information

Background: Account Managers can assign provider demographic data access to designated users so that the most appropriate staff members validate/update/attest to provider directory information.

Instructions:

- 1. From the *Account management* page, click **Manage your user accounts** located under the *Manage user accounts* section.
- 2. Click the **View** link for a specific user.
- 3. That user's *Account information* will display.
- 4. Move the *Provider & practitioner data* toggle to the right.
- 5. When the user logs in after access is granted, they will see a link to *Provider & practitioner profiles* in their top navigation bar.
